
PERSONAL VICTORY WEEKEND

Today's personal and professional laws of achievement and fulfillment.

Health

Poor health and low energy are epidemic. Trying to create life changes, momentum and lasting results is very difficult without vibrant health. Higher levels of well being lead to higher levels of living, in many ways. Before we look at the driving forces that control your wealth and happiness, we'll review the steps to improve your physical well being. Want to have **more energy, look better, get fewer colds, improve your skin, sleep more soundly, lose weight?** Duane will review the laws of obtainable and sustainable natural health that he lives every day.

Wealth

Financial worries are the leading cause of life and relationship pressures. Financial laws and money practices are understandable, effective and applicable to every person and business. Become **debt free, improve your income, avoid money market meltdowns, increase your net worth and control your financial future.** No matter what your current money situation, if you learn and start applying these laws, you are guaranteed to move away from financial stress and toward financial freedom. Duane shows you exactly how he has done this (and you can too) in very little time.

Happiness

Nothing is sought after more than happiness. Improving your health and eliminating money worries will dramatically improve your happiness, but if you simultaneously break the natural laws of fulfillment, you will still feel like you are losing the game of life. Duane shares the laws of **greater peace, confidence and joy.**

Should you attend?

Please rate yourself out of 10 in each area above. What would even modest improvements in any of those areas mean to you? What negative emotions would you stop feeling? What things could you start doing and enjoying? So what are you waiting for? The road to someday leads to a town called nowhere. So I ask, if not now, then when?

Duane will share proven tools & resources to help you improve and maintain wonderful health, increase your wealth and create happiness. Don't miss out. Call Today.
